

## Technical data sheet Fire protection duct

Fire protection duct for fire-proof routing of photovoltaic cables and inside and outside buildings. Consists of non-conductive, frost-resistant fibre glass lightweight concrete and fulfils the requirements for the contact protection of rescue services in case of fire. Tested and approved to DIN 4102 Part 11, as an I30 duct, may therefore be used in emergency and escape routes. Including lid screws and 3 m of sealing strip.
